

Alpine Chamois is an extremely important game animal in Slovenian hunting society. Population is well managed and even hunters in moderate shape can expect to get their trophy at the lower parts of the mountains. Several heavy trophies were taken at the foot of the mountains as well.

Alpine Chamois hunt in Slovenia 2025

Hunters who are fit enough to follow the Chamois high on to the slopes and peaks of the Karawanken or Julian Alps can expect to be equally as rewarded. Hunt is fair chase, conducted by spot and stalk mainly. On certain vantage points even the high seats are built. From there hunter may rest while waiting his quarry and admire the breathtaking Nature. Rut time is November and early December. Solitary old trophy bucks are on move chasing does. For experienced hunters this is the best and the most exciting hunting time.
